Main Features:

The design of low angle of inclination and large capacity:

The design of low angle of inclination and large capacity. It is more suitable for construction vehicle use, while safety factor is 10% higher than traditional design. The movement of the mixing drum, mixing drum mesh, and the mixing drum of manufacturer, are designed to ensure the structural stability.

Feeding Unit with Single-Tube Feeding Bucket:

Feeding unit with single tube feeding bucket, and reduce the impacting to mixing blades, discharging outlet with reasonable design to ensure the conveying continuously.

Multi Types of Chassis Matched:

Multi types of chassis matched, which include many brands like FAW (Jiefang), SHACMAN, etc.

Remarks:

Configuration can be customized per clients' requirements.

Product Features:

- 03 JBT Concrete Mixer Pump

Brief Introduction:

The concrete mixing trailer pump is a new type of equipment that combines functions of concrete mixer and concrete delivery pump. It uses fully hydraulic operation with high performance, as well as easier operation and smaller operating space. This equipment is applicable to small and medium-sized projects ranging from 3 floors to 13 floors as well as various projects such as rivers, canals, road and railway construction, power transmission and transformation engineering, and slope protection for geological disasters.

Product Specifications:

- **Engine Model**: Yanmar engine
- **Power**: 101-135kW
- **Rated Pressure**: 15MPa
- **Dimensions**: 4900 x 2400 x 3400mm
- **Weight**: 25000kg
- **Operating Weight**: 15000kg
- **Fuel Capacity**: 600L

Technical Specifications:

- **Concrete Delivery**: 0-45m³/h
- **Concrete Discharge**: 0-45m³/h
- **Concrete Mixing**: 0-500L/min
- **Concrete Discharge**: 0-500L/min
- **Concrete Mixing Speed**: 0-100 r/min
- **Concrete Discharge Speed**: 0-100 r/min
- **Concrete Mixing Capacity**: 0-4m³/h
- **Concrete Discharge Capacity**: 0-4m³/h
- **Concrete Mixing Range**: 0-1000mm
- **Concrete Discharge Range**: 0-1000mm
- **Concrete Mixing Efficiency**: 95%
- **Concrete Discharge Efficiency**: 95%

Features:

- **Fuel**: Diesel
- **Max Power**: 101-135kW
- **Engine Type**: Yanmar engine
- **Rated Pressure**: 15MPa
